Thank You

for the fine business that you, our customers, have given us during the past year. We have enjoyed an ideal growing season this year and we believe that our stock is the best that we have ever produced. We have a good quantity of most of the items that we are offering, and are in position to begin shipments on evergreens after October 1st.

You Are Invited

to visit our nursery and see for yourself over 250 acres of quality nursery stock.

LAST YEAR'S PRICES ARE STILL IN EFFECT ON MOST ITEMS

Regardless of increased costs of labor, packing material, etc., we have made no increase in prices on most of the items listed.

LINING-OUT STOCK

We have been offering lining-out stock to the trade since 1919. Most of our first customers are still buying from us, and many new ones have been added.

OUR FIELD GROWN LINERS have always been in demand, and this year we have a better assortment than ever before.

OUR POT PLANTS are well developed plants with good tops and roots.

OUR ROOTED CUTTINGS are extra heavy and many nurserymen plant them direct into the field, while others grow them in beds for one season.

SAVE ON FREIGHT AND WHOLESALE BILLS by using our lining-out stock and have fresher, acclimated, home-grown nursery stock.

Block of field grown Lining-out Stock. Good supply of Berckman's, Baker's, Excelsa; Bonita, Pfitzers, Abelia, Boxwood, Jasmine, etc. (Sept. '41)

CUPRESSUS Fastigiata, Worthiana: Worthiana Italian Cypress

Very superior strain of symmetrical upright growth, and much hardier than other cypresses. The parent tree on our grounds is twenty years old and has never been injured by cold when all other specimens were either killed outright or severely damaged by the severe cold spells we have had every four or five years. Young plants propagated from this stock were uninjured in the field while other stock was killed. Every tree is handsome and uniform in its growth. Maximum height 20 feet.

GOLDFLAME Honeysuckle:

(Name Trade-marked)

A superlative variety; beautiful, hardy and versatile. The large flame-coral trumpets lined with gold, fragrant after nightfall, appear in immense, showy clusters the same year the plant is set out. Reaching its full glory of bloom in early summer, it nevertheless flowers abundantly from May until frost. Dark blue-green foliage, disease and pest free, is attractive in itself and makes a perfect background for the brilliance of the flowers.

Allowed to grow naturally, Goldflame, will climb a trellis or spread as a ground cover; pruned it becomes a striking specimen shrub, while if planted in a row and sheared it gives a smashing effect as an everblooming hedge.

A native of South America. One of the most attractive and colorful shrubs in our country. Yellow blossoms in sprays with red seedpods that cling to the stem give a profusion of color the entire summer, regardless of the heat and dry weather. Ideal for use in landscape work where a small flowering shrub is required. Can be trimmed often without affecting its beauty. Fine for cut flower, keeping several days after cut.
